

PolicyLinkSM Dental + Vision Plan

Benefits That Give You The Freedom To Choose

No two people have the same health care needs. That's why your employer has partnered with The Standard to provide you with Dental and Vision benefits that are flexible enough to fit your lifestyle. The plan combines Dental and Vision into a single benefits package that gives you more control over your health care budget.

Choose Your Own Dental And Vision Providers

Your new Dental care is backed by one of the largest networks in the country. And there are no restrictions on your Vision care – choose any provider you wish.

Decide How Your Health Care Budget Is Spent

With this plan, your Dental and Vision benefits share one plan maximum, and you can choose to apply unused Vision benefits toward Dental care – giving you more flexibility to spend your health care budget where you need it most. That includes preventive care, which contributes toward maintaining your overall health.

A Single Carrier To Manage Two Benefits

Combining Dental and Vision into a single plan means you only need to call one number to manage both your Dental and Vision care. Dental claims are automatically submitted by your care provider. With our Vision coverage, you'll submit a claim for reimbursement after paying at the point of care.

Insurance From A Nationwide Leader

Plus, the plan is backed by the comprehensive services and support of The Standard, a nationally recognized carrier of group Disability, Life, Dental and Vision insurance.

How Your PolicyLinkSM Dental + Vision Plan Works

Meet The Johnsons

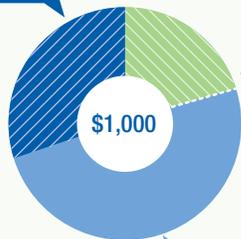

Each member of the Johnson family has unique health needs. This example demonstrates how the PolicyLink Dental + Vision Plan works for each of them. John's employer has chosen a plan maximum of \$1,000 per family member. \$200 of that maximum also may be used on Vision care.

Meet John

John uses his plan for preventive care. His annual dental cleanings, exams and X-rays use \$300 of his \$1,000 annual maximum. His annual eye exam is \$85, which applies to his \$200 Vision maximum. John has \$500 remaining for Dental care and \$115 eligible for either Vision or Dental care.

\$300 Dental used

\$500 Dental remaining

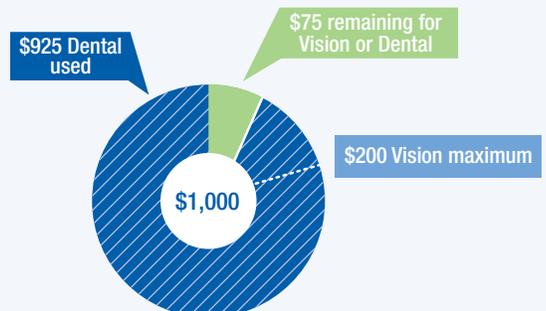

\$200 Vision maximum reached
Jane incurs \$150 in out-of-pocket costs

Meet Jane

John's wife, Jane, spends \$300 on preventive Dental care each year, just like her husband. She also wears disposable contact lenses and has regular eye exams, bringing her total Vision expenditures to \$350 for the year. Because the Johnsons' plan includes a Vision maximum of \$200, Jane incurs out-of-pocket costs of \$150 and has \$500 remaining for Dental care.

Meet Jessie

John and Jane's daughter, Jessie, has several cavities that require fillings – procedures that will total \$925. Because the \$200 reserved for Vision also can be spent on Dental, Jessie is able to cover those expenditures using her combined plan maximum of \$1,000. She has \$75 left for either Dental or Vision care.

\$200 Vision maximum
